

Ideation Phase

ServiceNow UI Policy – High Impact Control

Date	01 October 2026
Team ID	SWTID-2026-7028
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	4 Marks

ServiceNow UI Policy Configuration:

The first milestone focuses on configuring a ServiceNow UI Policy for Incident records. The policy is designed to apply additional controls when the Incident impact is set to High. The configuration includes defining the policy, setting the condition, making the Assignment group mandatory, and enabling Reverse if false.

Use this milestone workflow to understand the configuration steps from accessing UI Policies through reviewing and submitting the High Impact Control policy.

Policy<https://www.mural.co/templates/brainstorm-and-idea-prioritization>

Step-1: Access ServiceNow, Create the UI Policy and Define the Problem

High Impact Incident UI Policy

Configure a ServiceNow UI Policy that responds when an Incident has high impact.

Milestone 1

Focus: configuration and control

Before you configure

Confirm the policy scope and required control. The policy applies only to high-impact incidents.

10 minutes

Define the trigger

5 minutes

A

Policy name

High Impact Control

B

Target table

Incident

C

Activation

Active = true

CONDITION

Impact is 1 - High

UI Policy action

- Assignment group
- Mandatory = true
- Reverse if false = true

Step-2: Configure the High Impact Condition and UI Policy Action

1 ServiceNow setup

Create the UI Policy for high-impact Incident records.

10 minutes

A

Log in

ServiceNow administrative or configuration access

B

Navigate

System UI → UI Policies

C

Create

Click New to create a UI Policy record

High Impact Control

UI Policy configuration

Table	Incident
Active	true
Condition	Impact is 1 - High

Purpose: apply additional controls for high impact.

Team focus

Define the problem clearly before configuring the policy.

Step-3: Review, Validate and Submit the UI Policy

2 Validate the UI Policy

Review the configuration, test the condition, and save the policy.

Final review

Submit after the review is complete.
