Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel	
PS-1	a ServiceNow administrator	to manage high-impact incidents correctly	assignment group details may not be mandatory	important incidents can be submitted without the required assignment information	concerned about incomplete incident handling	
PS-2	a ServiceNow user	to submit an incident with the correct controls	the form should apply additional controls only when Impact is High	high-impact incidents require stricter handling	uncertain whether the incident is properly configured
